Bert - I'll answer for Kevin since he's out of the office and I made the suggestion. I thought it would be a good opportunity to sit down with just you and give an update about where my programs are at. Kevin could update you on anything that he finds important for you to know about - similar to the discussions we've had from time to time. Also, if you had any questions outside of nutrients, we could discuss them also. If you feel someone needs to be in the discussion, I don't see any reason for them not to be there, but again, I was just thinking about the one-on-one informal talk.

Thanks,

David

Kevin, do you want to meet with just me, or should we be sure others are available? Can you say anything about what particular topics you want to cover?

Hi Bert,

David Waterstreet and I are considering driving down to Denver (rather than conference call) for this discussion if you may have some time afterwards to discuss related issues that David and his team are involved with. More of an opportunity to share information with one another. Let us know if you have an hour and a half or so after the nutrient discussion for us and we'll plan to make the trip.
